

To whom it may concern,

Dave Fitzgerald Contracts has completed three renovation projects over the past 6 years ranging in value from €15k to €45k.

All projects were run to ensure continuity of sub-contractors thus ensuring no stop/start delays to the projects, this was critical as for two of the projects we continued to reside in the residence during the renovation.

As with all renovation projects there will be unforeseen problems during the construction, these were met with viable solutions which were implemented with minimal cost and disruption to the project.

We have found Dave Fitzgerald to be highly professional, quality conscious and reliable, we have no hesitation in recommending this construction firm.
